

Reply Worldwide

The Reply Worldwide is the workhorse of the Reply Systems Audience Response products range. The largest keypad in the range, its advantage is that it is less likely to be accidentally removed from a site.

The keypad features 15 buttons – 0 to 9, 3 soft keys, asterisk and clear.

The Worldwide handset can be bought in any configuration that suits your requirements. Determine the number of handsets you require, and we will provide you with a quote for the complete system.

Components of a complete system:

- Worldwide handsets – tell us how many you'll need.
- USB Base station.
- Powercom software – version capacity will match the number of handsets required.
- Padded Carry Bag.

Optional extras:

- USB Dongle – allows single software licence to load onto multiple computers.

Please Note: No Keypad Programmer for channel changing is necessary as this can be done on the handset.

Features

- User IDs – Addresses 1 – 250, Channel IDs 1 – 15.
- System Capacity – Standard Configuration – 250 keypads, choice of 15 channels for a maximum of 3750 keypads per site. Arena model available.
- Each keypad has a unique and permanently assigned serial number. Serial numbers can be transmitted at the same time as responses.
- Seven segment red LED display. Easy to read in all lighting conditions.
- Uses two way RF communications to confirm transmission and receipt.
- Transmission range – 150m in an indoor area.
- Dimensions 152 x 63 x 25mm, weight with batteries 137 grams.
- Keypad colour – black.
- 2.4GHz Frequency Hopping Spread Spectrum System.
- Protected from interference from other RF devices WLAN, PDA, phones etc.
